Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 5-6 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Also the claims recite a positive connection to the body, a magnet mounted on top of said severed spine area and said vein segment; and magnet is mounted in a chip mounted on said vein segment, language such as "adapted to be mounted" should be used.

2. Claims 1-4 are allowed.
